SEWALLS FALLS BRIDGE IN CONCORD TO BE CLOSED FOR TWO DAYS
DAYTIME CLOSURE NEEDED FOR STRUCTURAL STEEL REPAIRS

The New Hampshire Department of Transportation and the City of Concord announce structural steel repairs will take place at the bridge over the Merrimack River on Sewalls Falls Road in Concord. The work will require the bridge to be closed to all traffic during the workday on Thursday and Friday, August 30 and 31.

A New Hampshire Department of Transportation crew will close the bridge to all traffic from 8:30 a.m. to 2:30 p.m. on August 30 and 31 while the repairs take place. The bridge will be open to normal traffic at all other times. Access to residences and businesses along the approaches to the bridge will remain open. Signs and barricades will be used to advise motorists and pedestrians of the closure.

In the event of adverse weather, work may be delayed until the next suitable workday.

Motorists traveling on Sewalls Falls Road in Concord are asked to seek alternate routes throughout the closure periods. Minor delays may be expected.
